1. The following is an examiner's statement of reasons for allowance: Arguments filed January 29, 2004 are persuasive. Note that while analytical systems using moving tapes for analysis are known per se (see, e.g., Miyata of record), the prior art fails to teach or suggest elongate test devices of the form claimed provided on rolls in an analytical device for passing test devices through the field of a detector.
2. Applicant's comments regarding the teachings of Parce '470 beginning at col. 6, line 23 are noted. The text cited by applicant is a particular embodiment, but a broader teaching of using non-rigid substrates per se is found, e.g., in the preceding two paragraphs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jan M. Ludlow whose telephone number is (571) 272-1260. The examiner can normally be reached on Monday-Thursday, 11:30 am - 8:00 pm.
